Overview/philosophy

The Medical Venturer (MedVent) program has focused on youth interested in exploring a career related to paramedicine. This program is built upon the traditional Scouts Canada program elements of leadership, community service, citizenship, personal development, and growth. It integrates development of knowledge that operations of an emergency medical system and the practical skills that paramedics and first responders use in their work.

The Peel Extreme Medical Ventures is a branch of this Canada-wide program. This website is for the purpose of bringing people into the Scouts Canada program. This is done by documenting the Ventures' experiences and what makes every day together an adventure. As well, Ventures teach Standard First Aid and other medical related classes. They use their website for people to sign up for their classes.

Branding

Scouts Canada believes in tradition. The logo that is used on this website is a reflection of the badges used throughout Canada. This badge is designed specifically for the Peel Extreme Medical Ventures and is featured on their uniforms. For this reason, the logo may not be altered and the colour palate is based off those colours.

The fonts and line design are supposed to reflect a rugged lifestyle as the Ventures are a part of Scouts. Charcoal lines are used to achieve this, as is the font choice of Special Elite.

Target audience

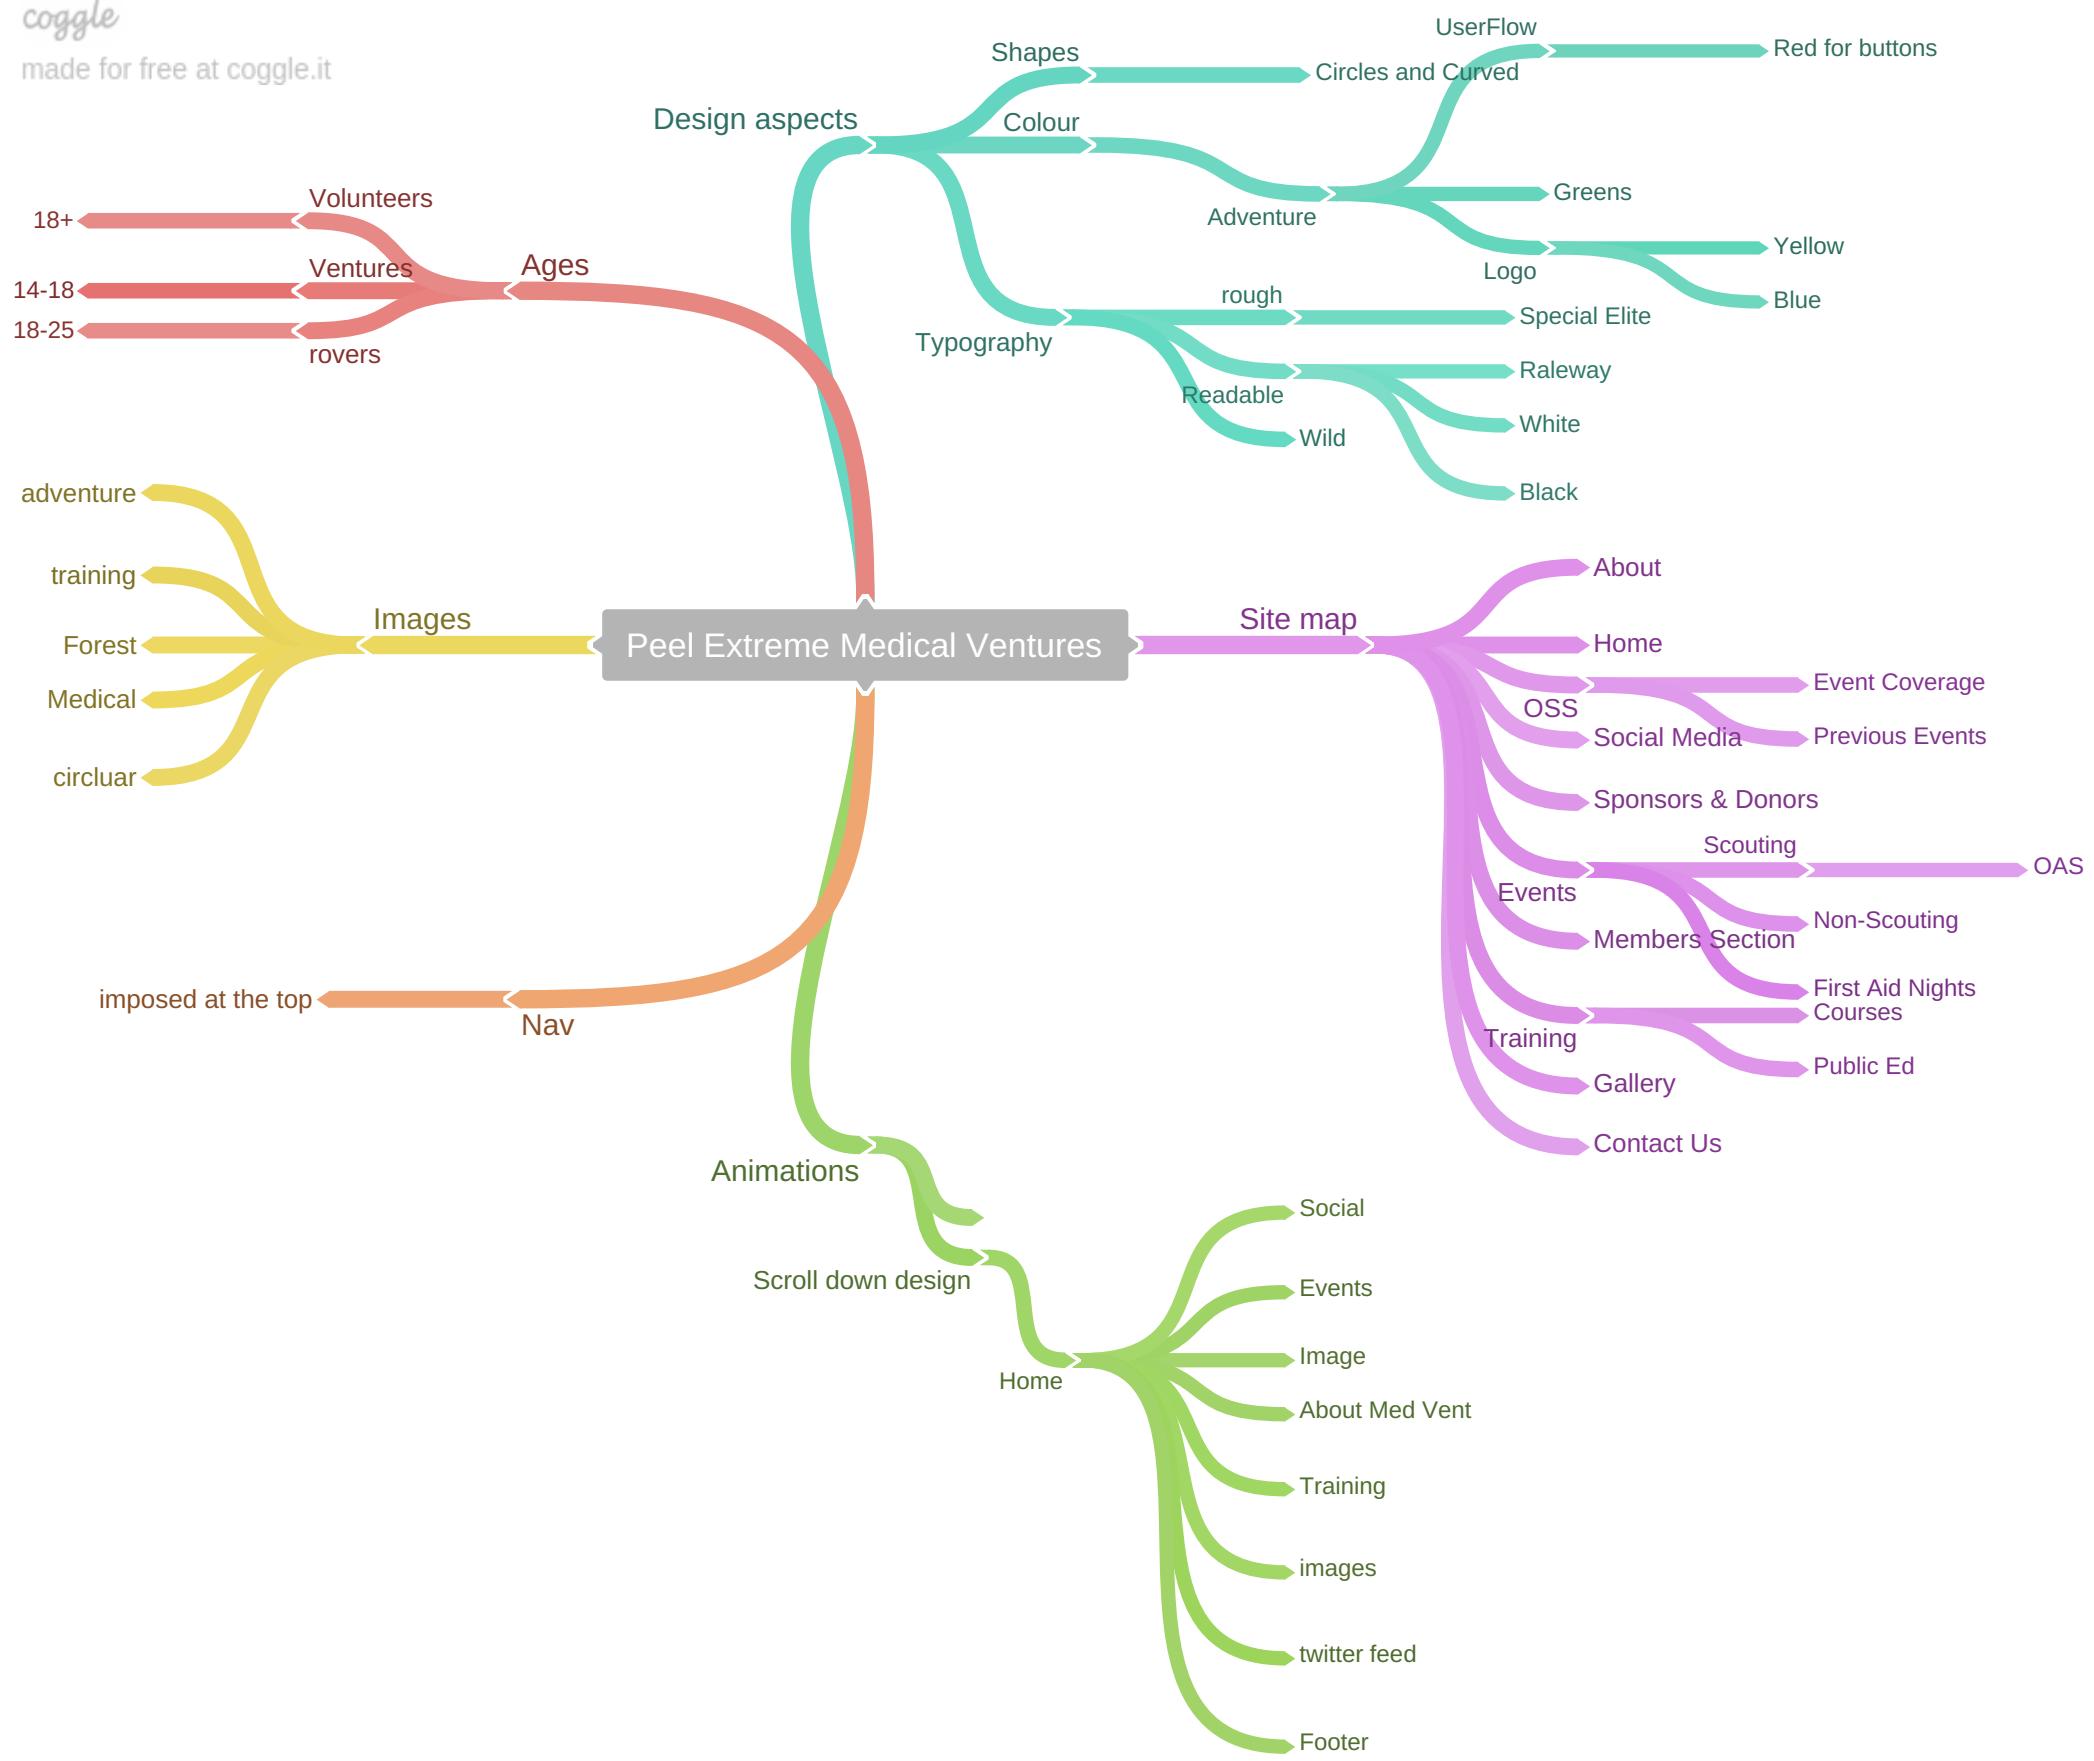

For this website, we are targeting youth 14-18-year-olds for their Medial Venturers (“MedVents”) program, as well as 18-25-year-olds for the Medical Rovers program.

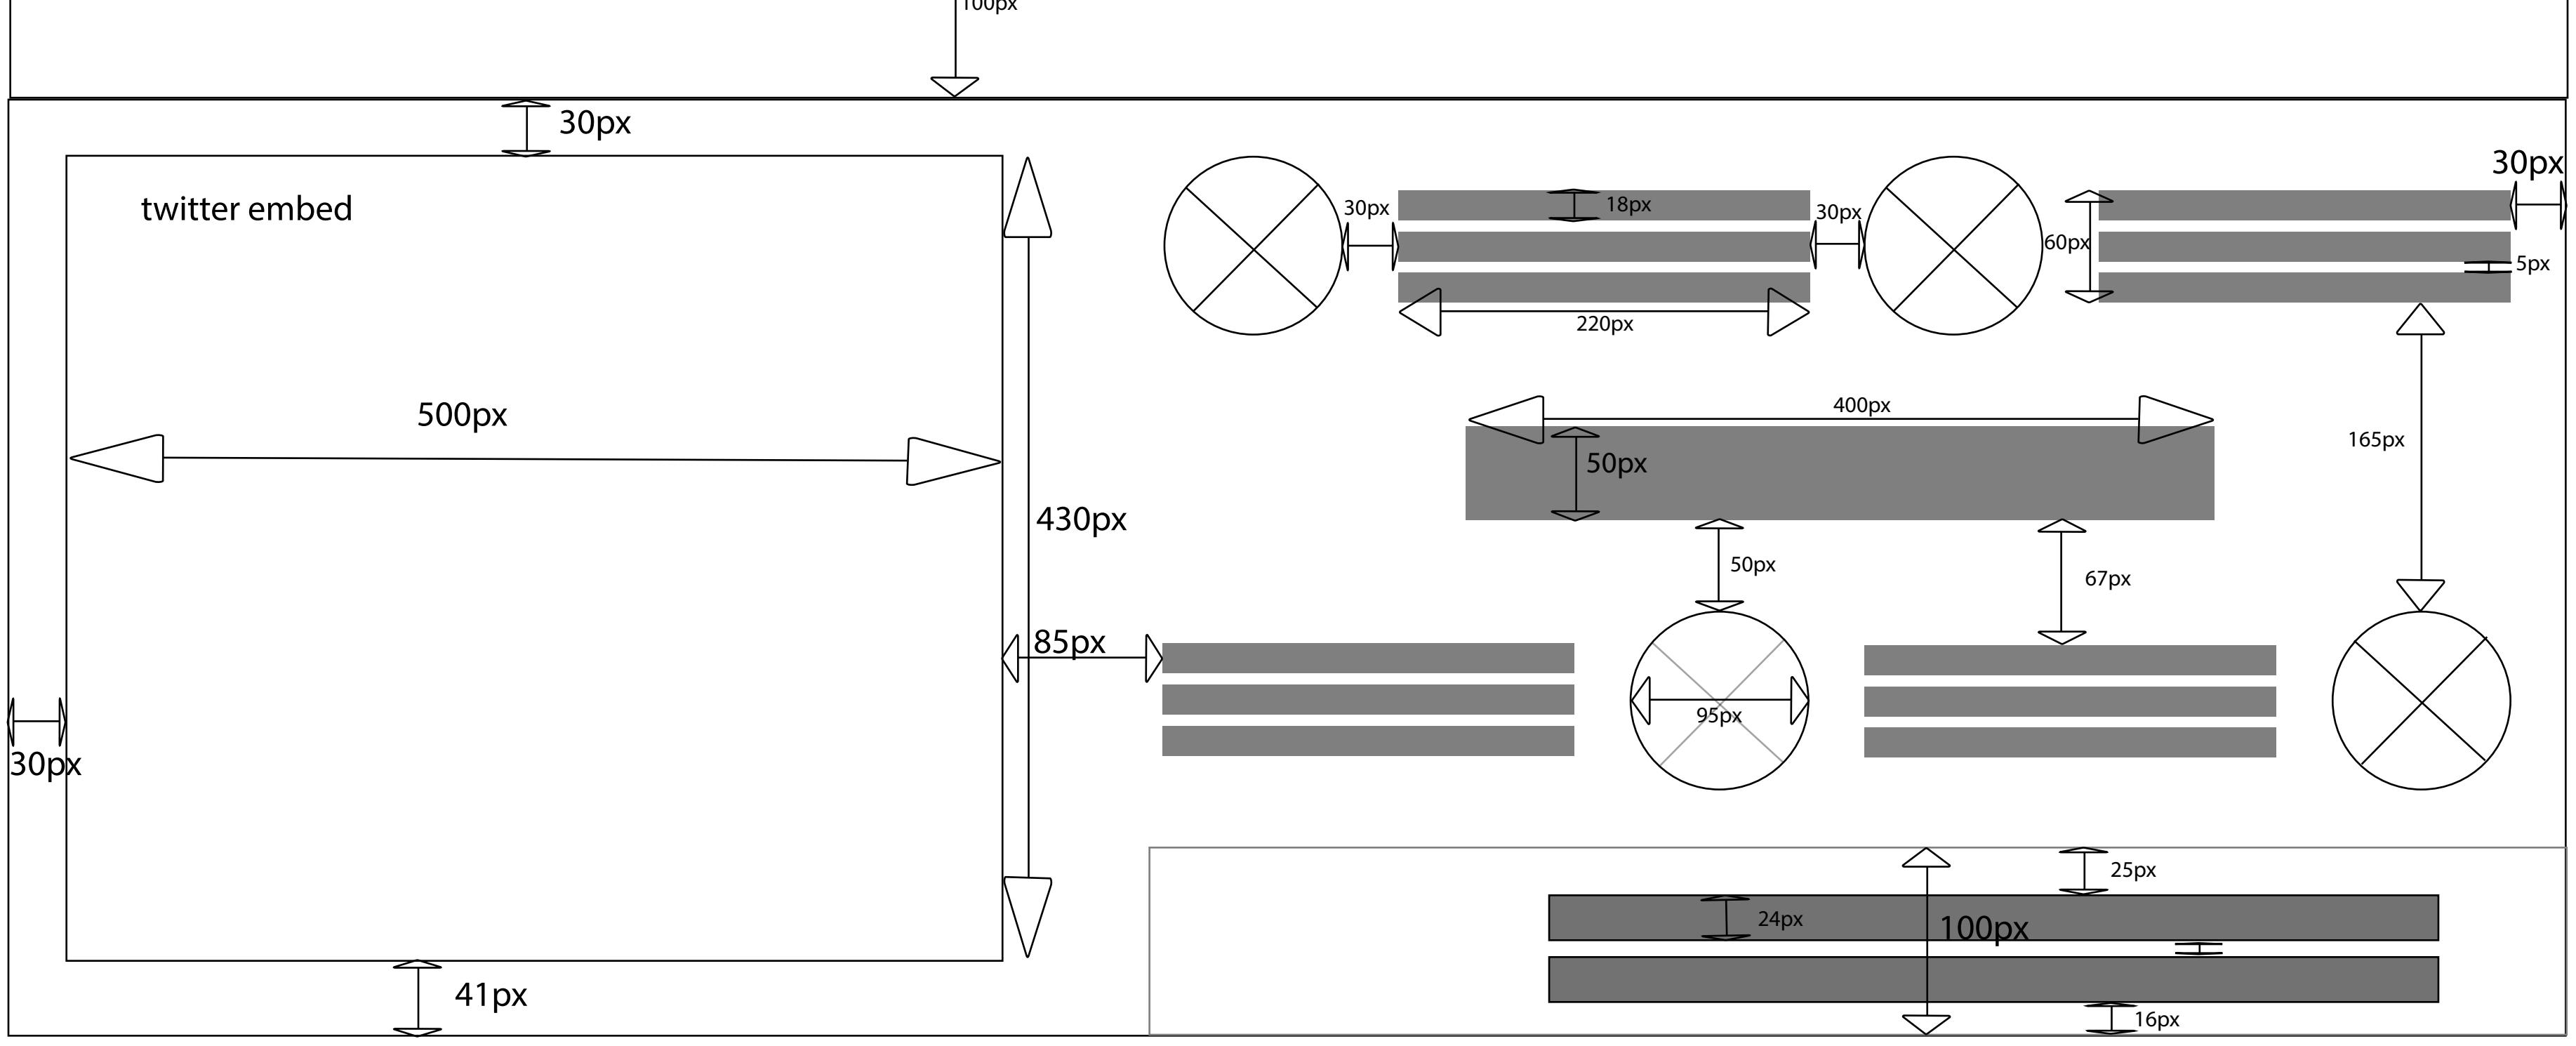

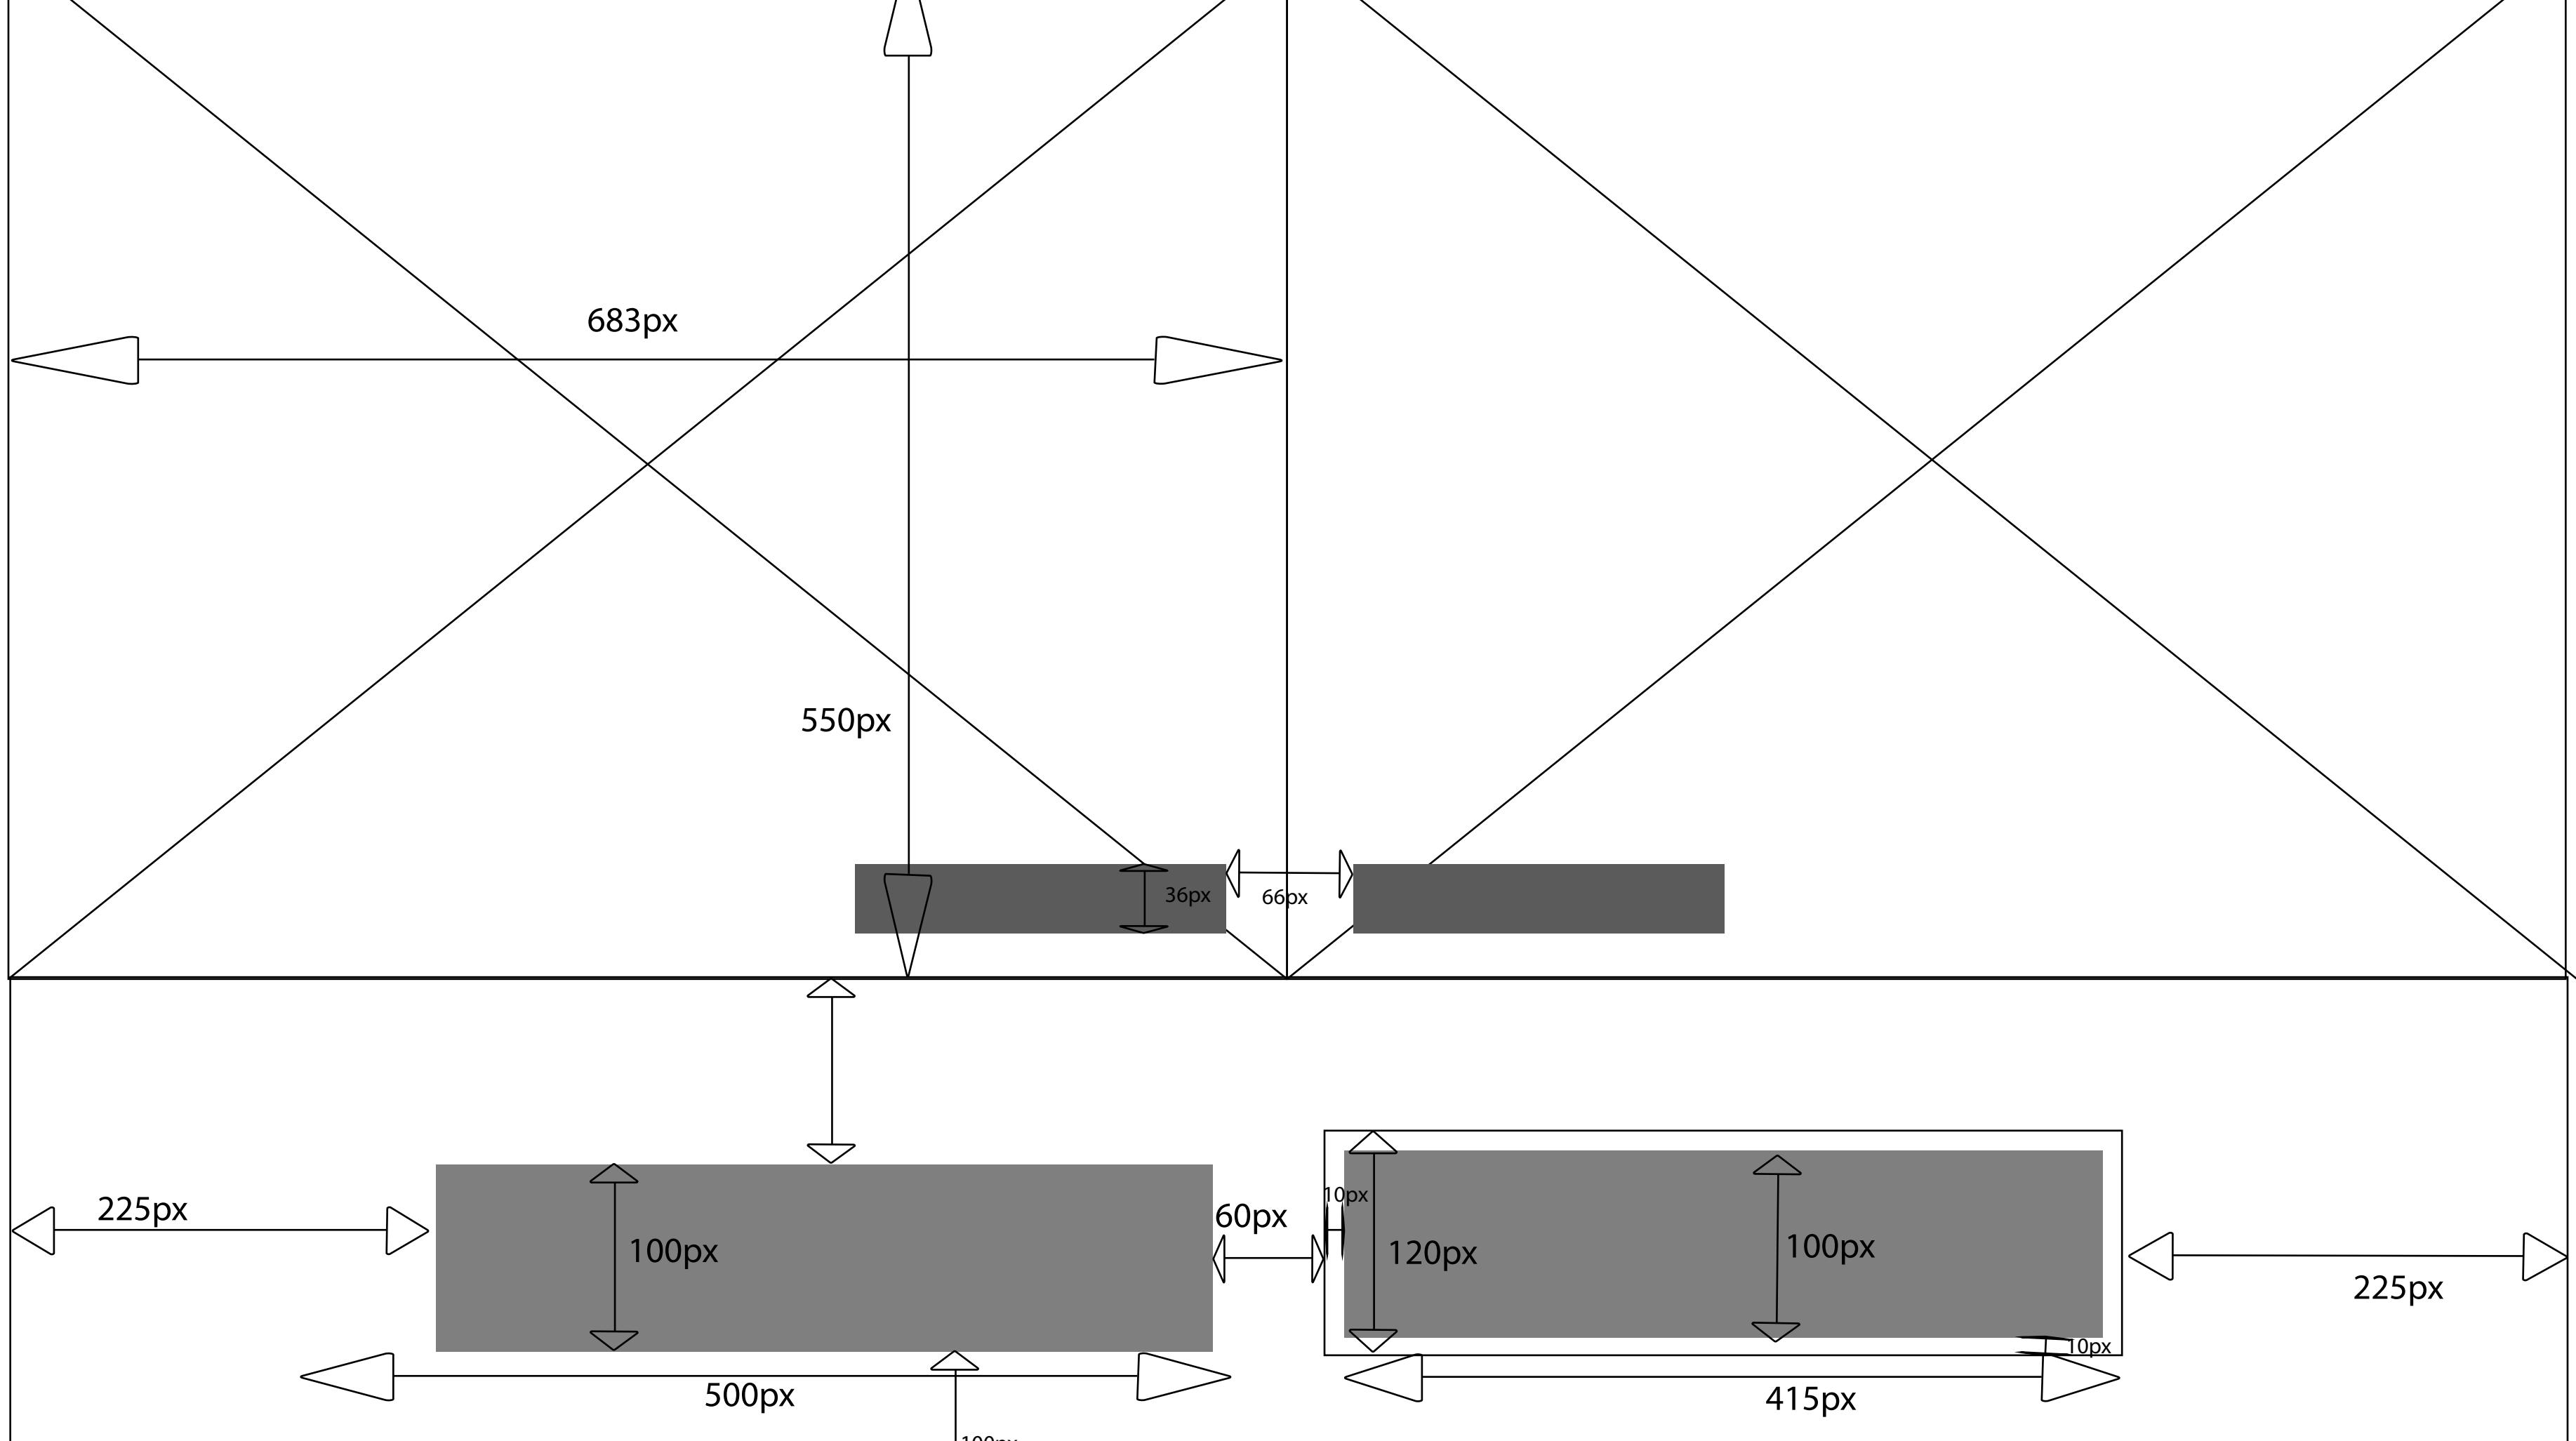

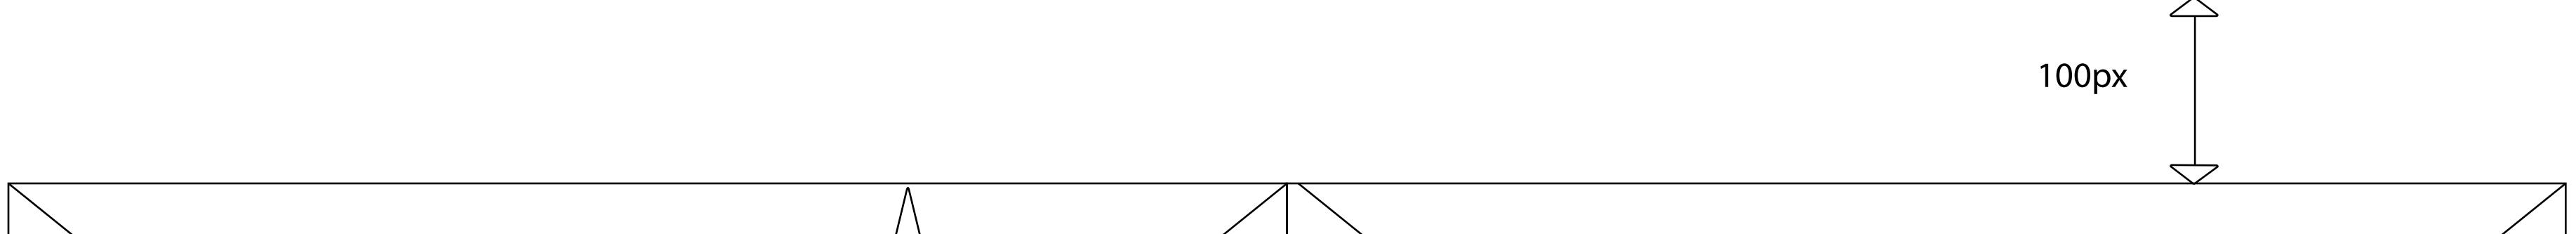

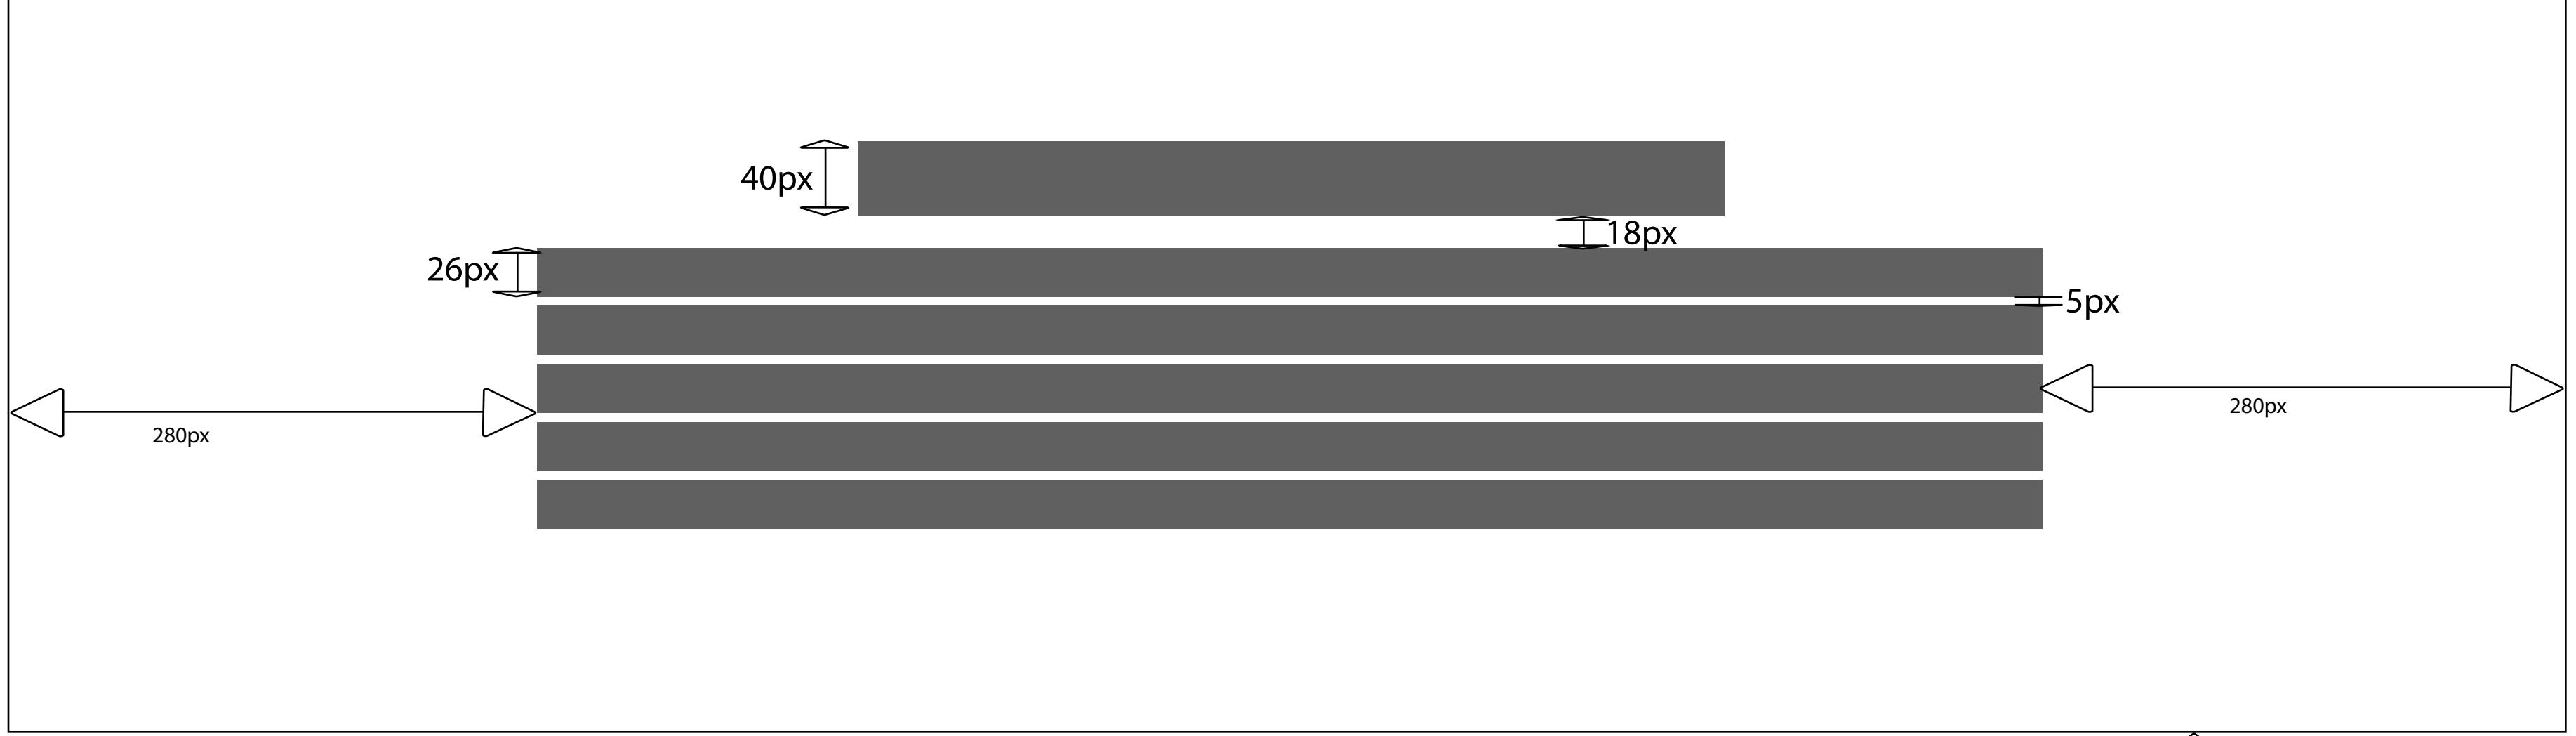

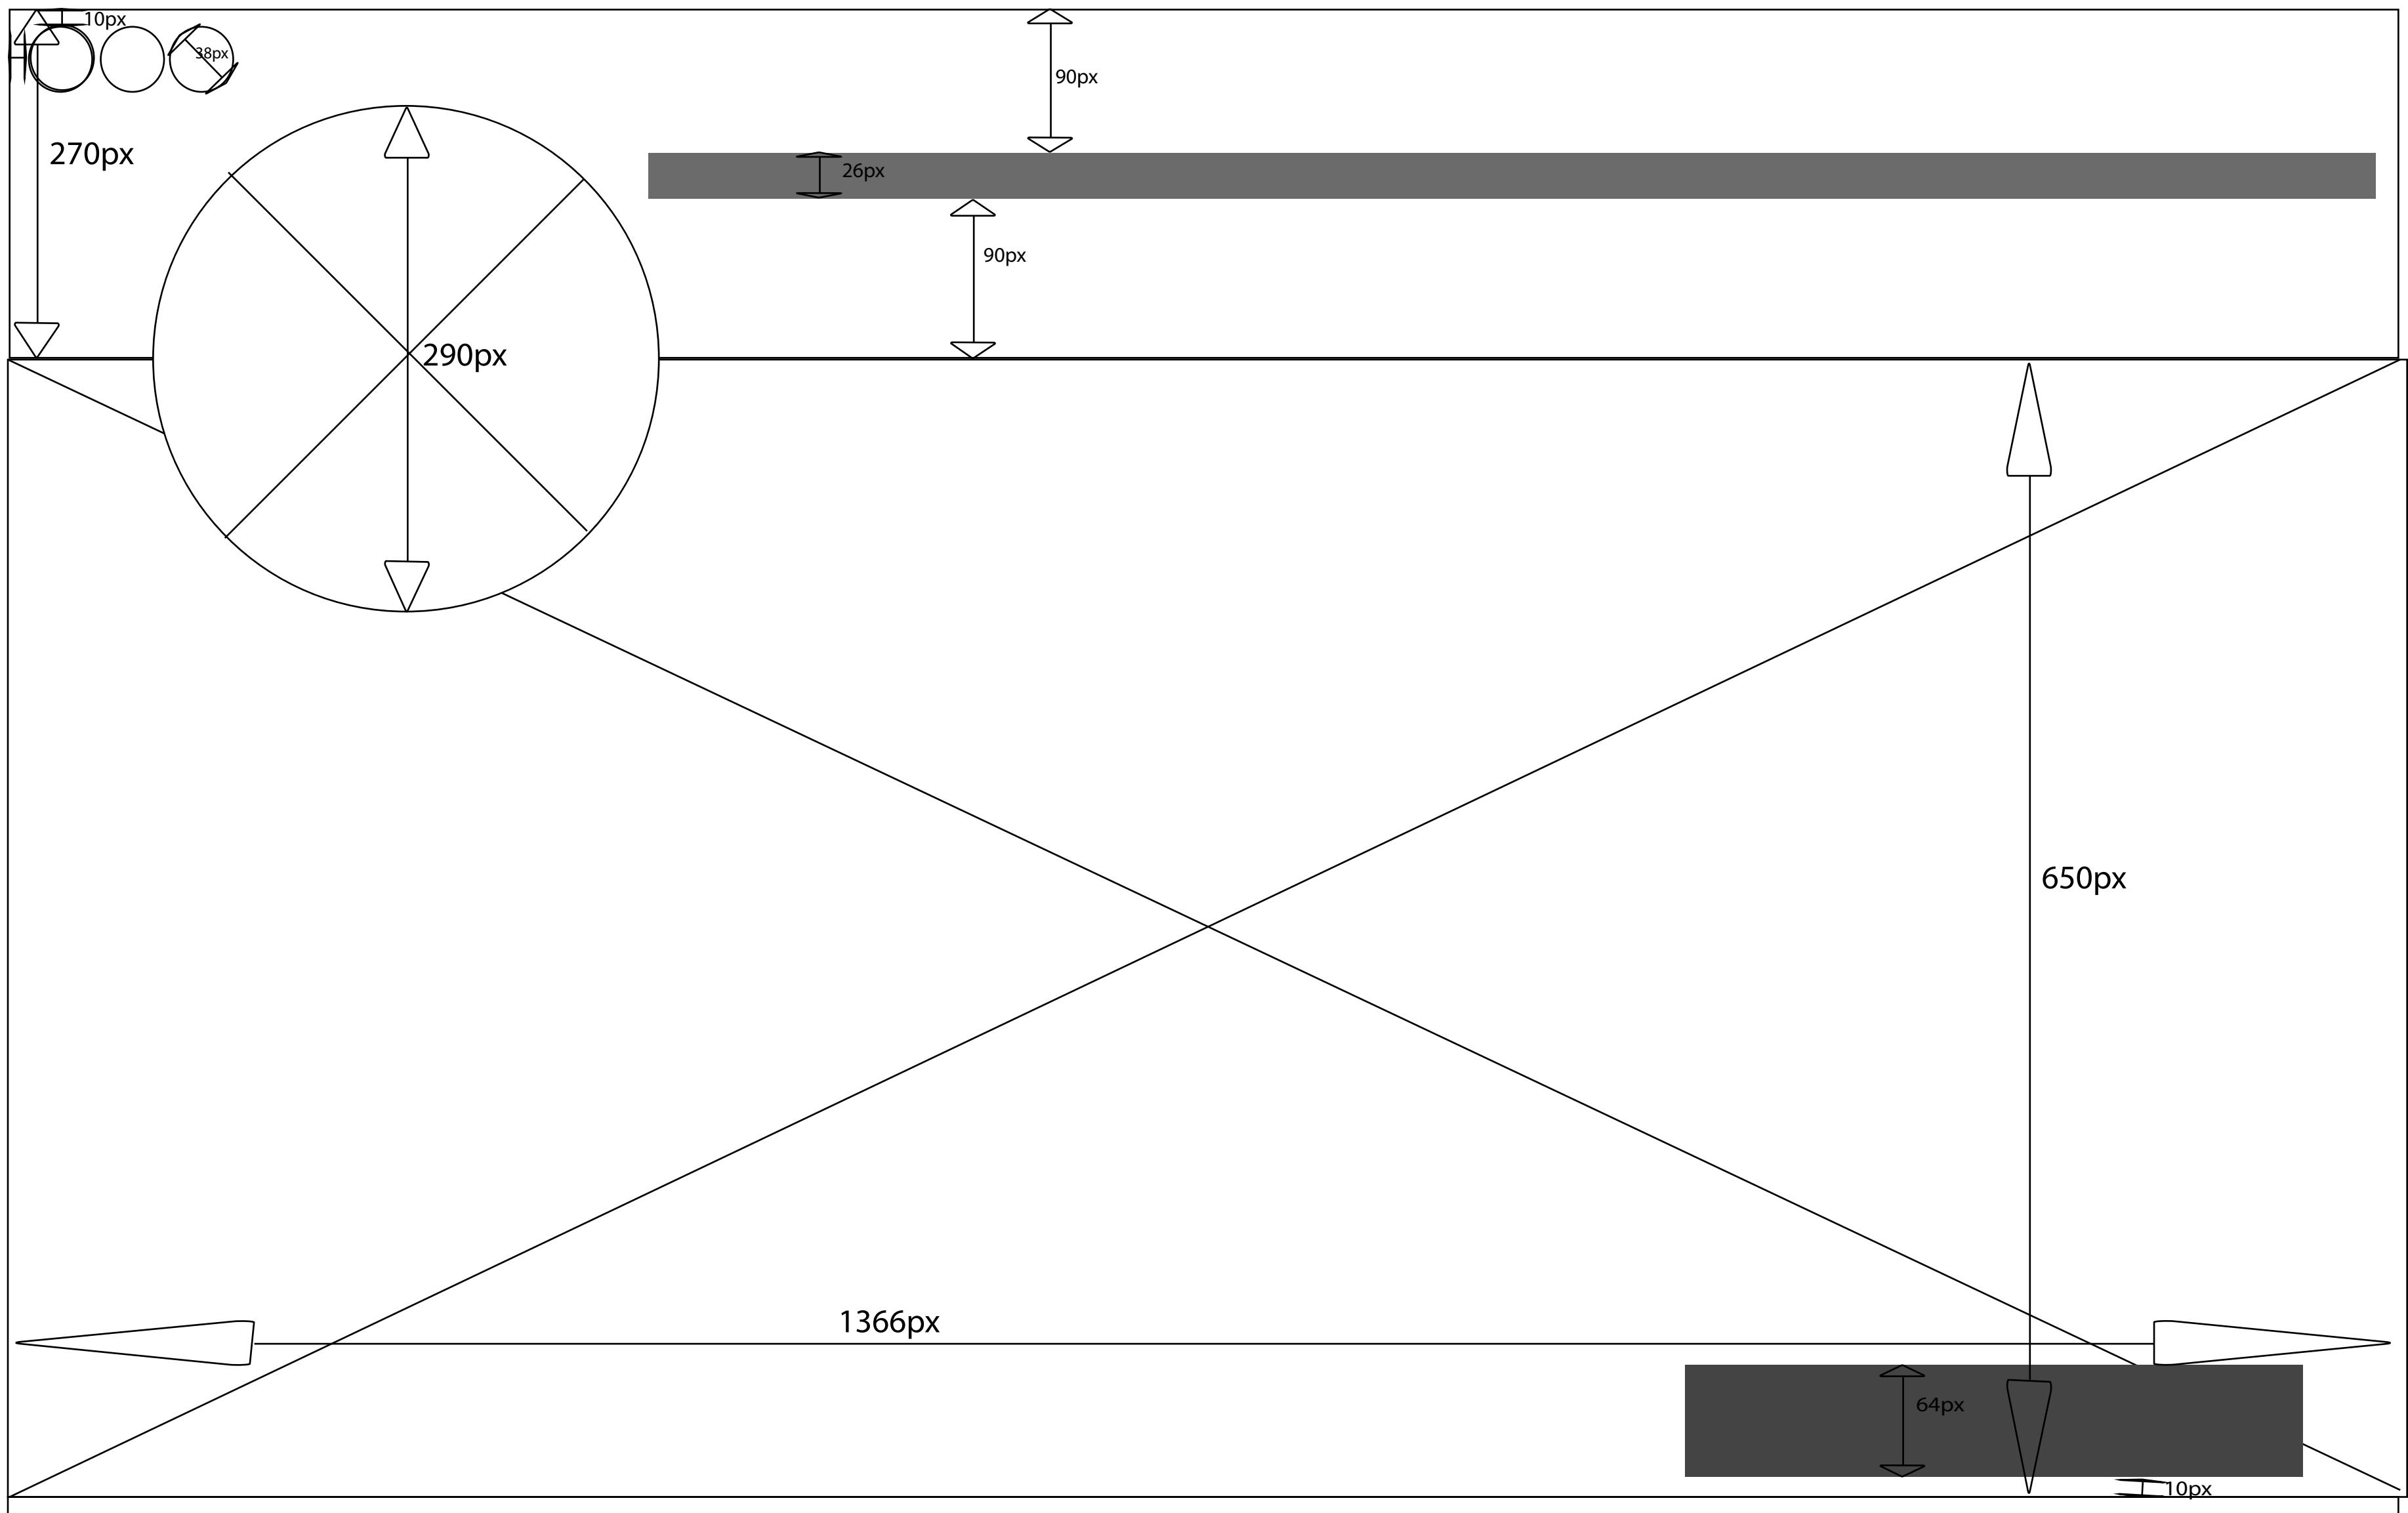

That being said, the website needs to be appealing to all ages as parents and medical professionals will be using this website. Thus the design needs to have some fun to it but for the most part look professional and clean.

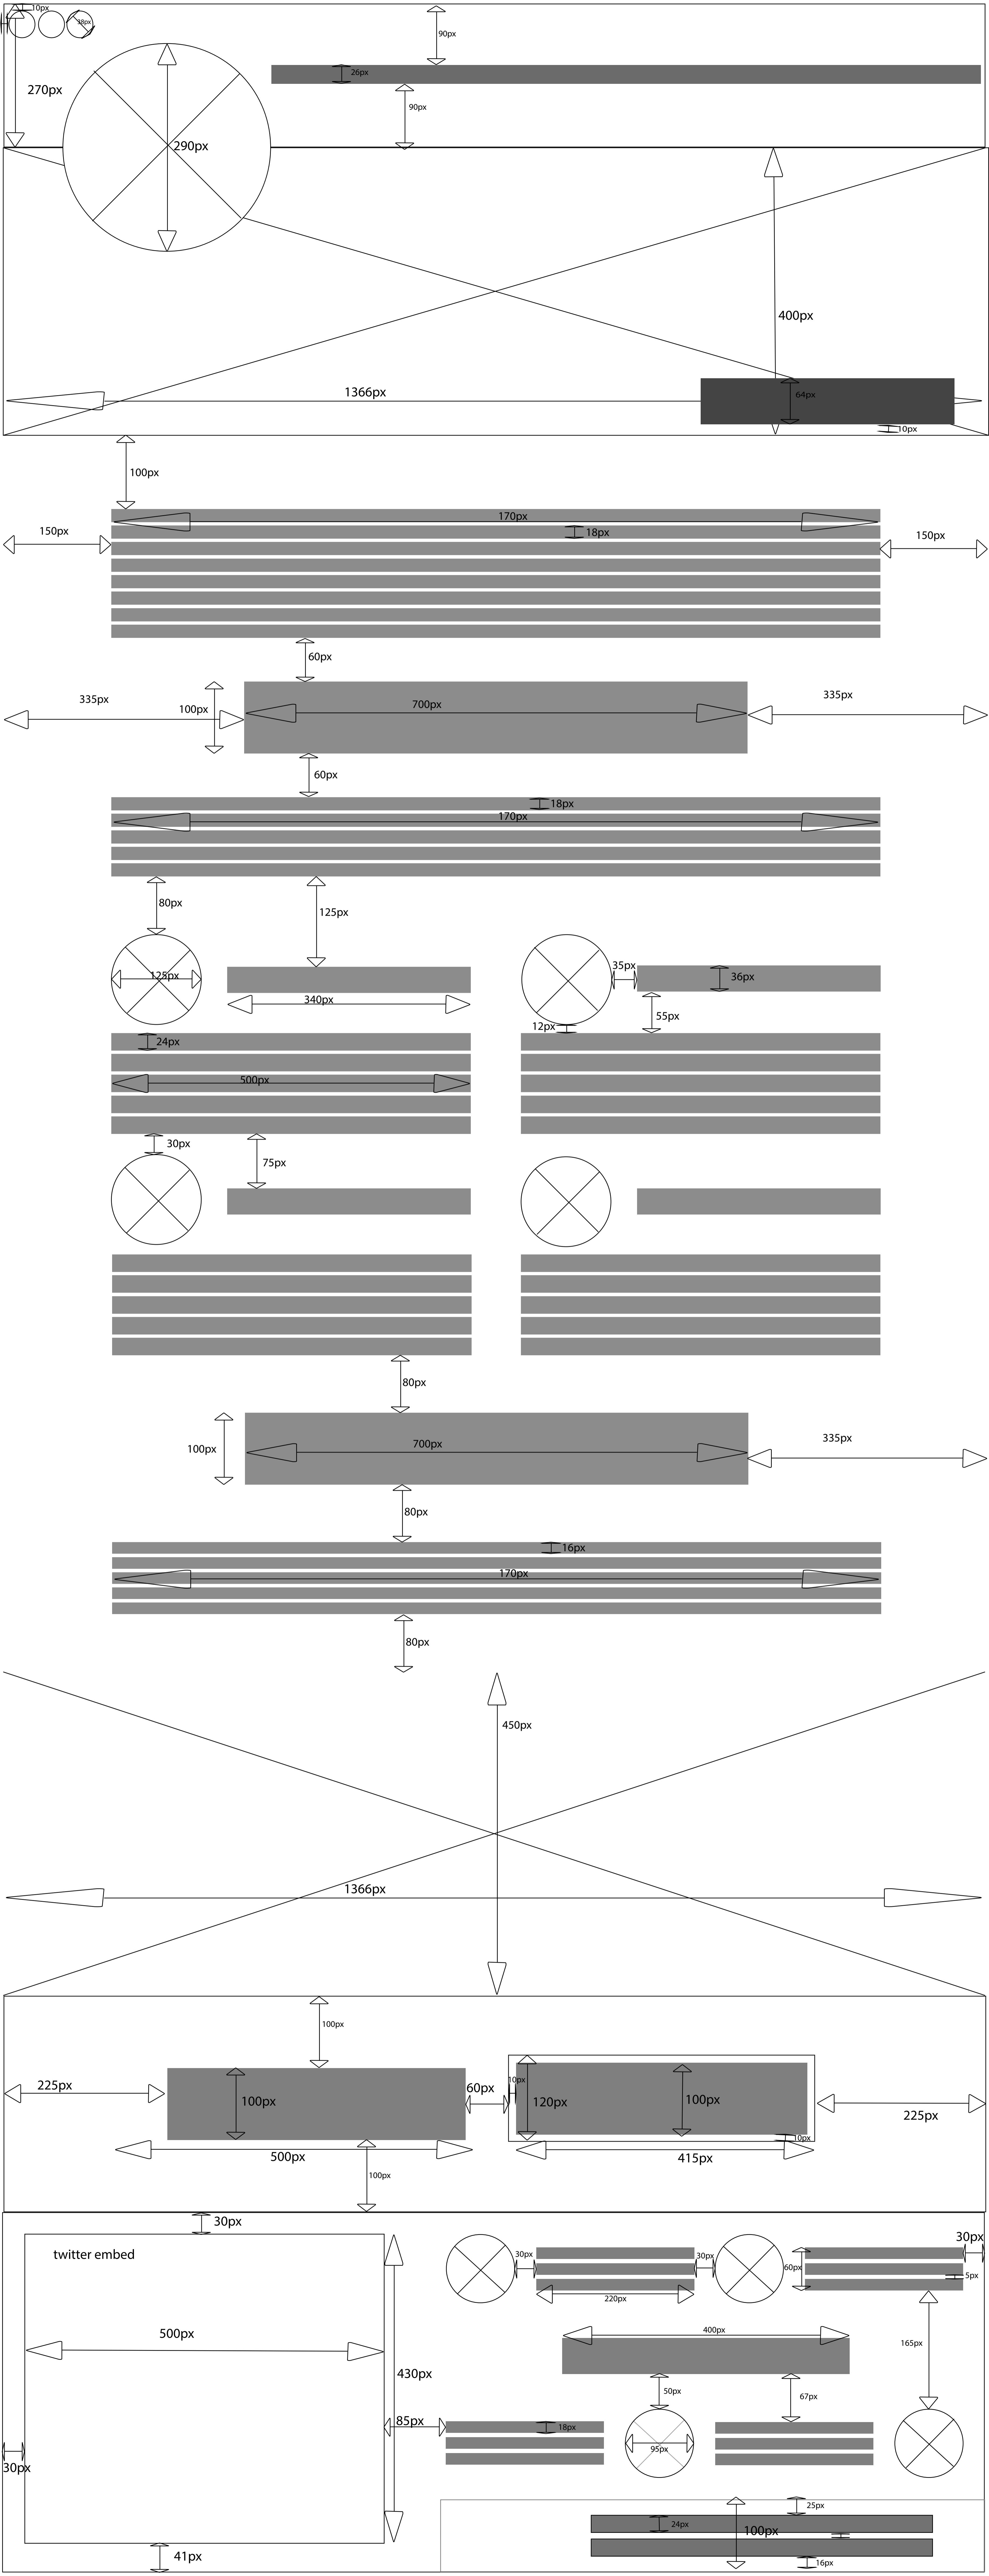

User experience

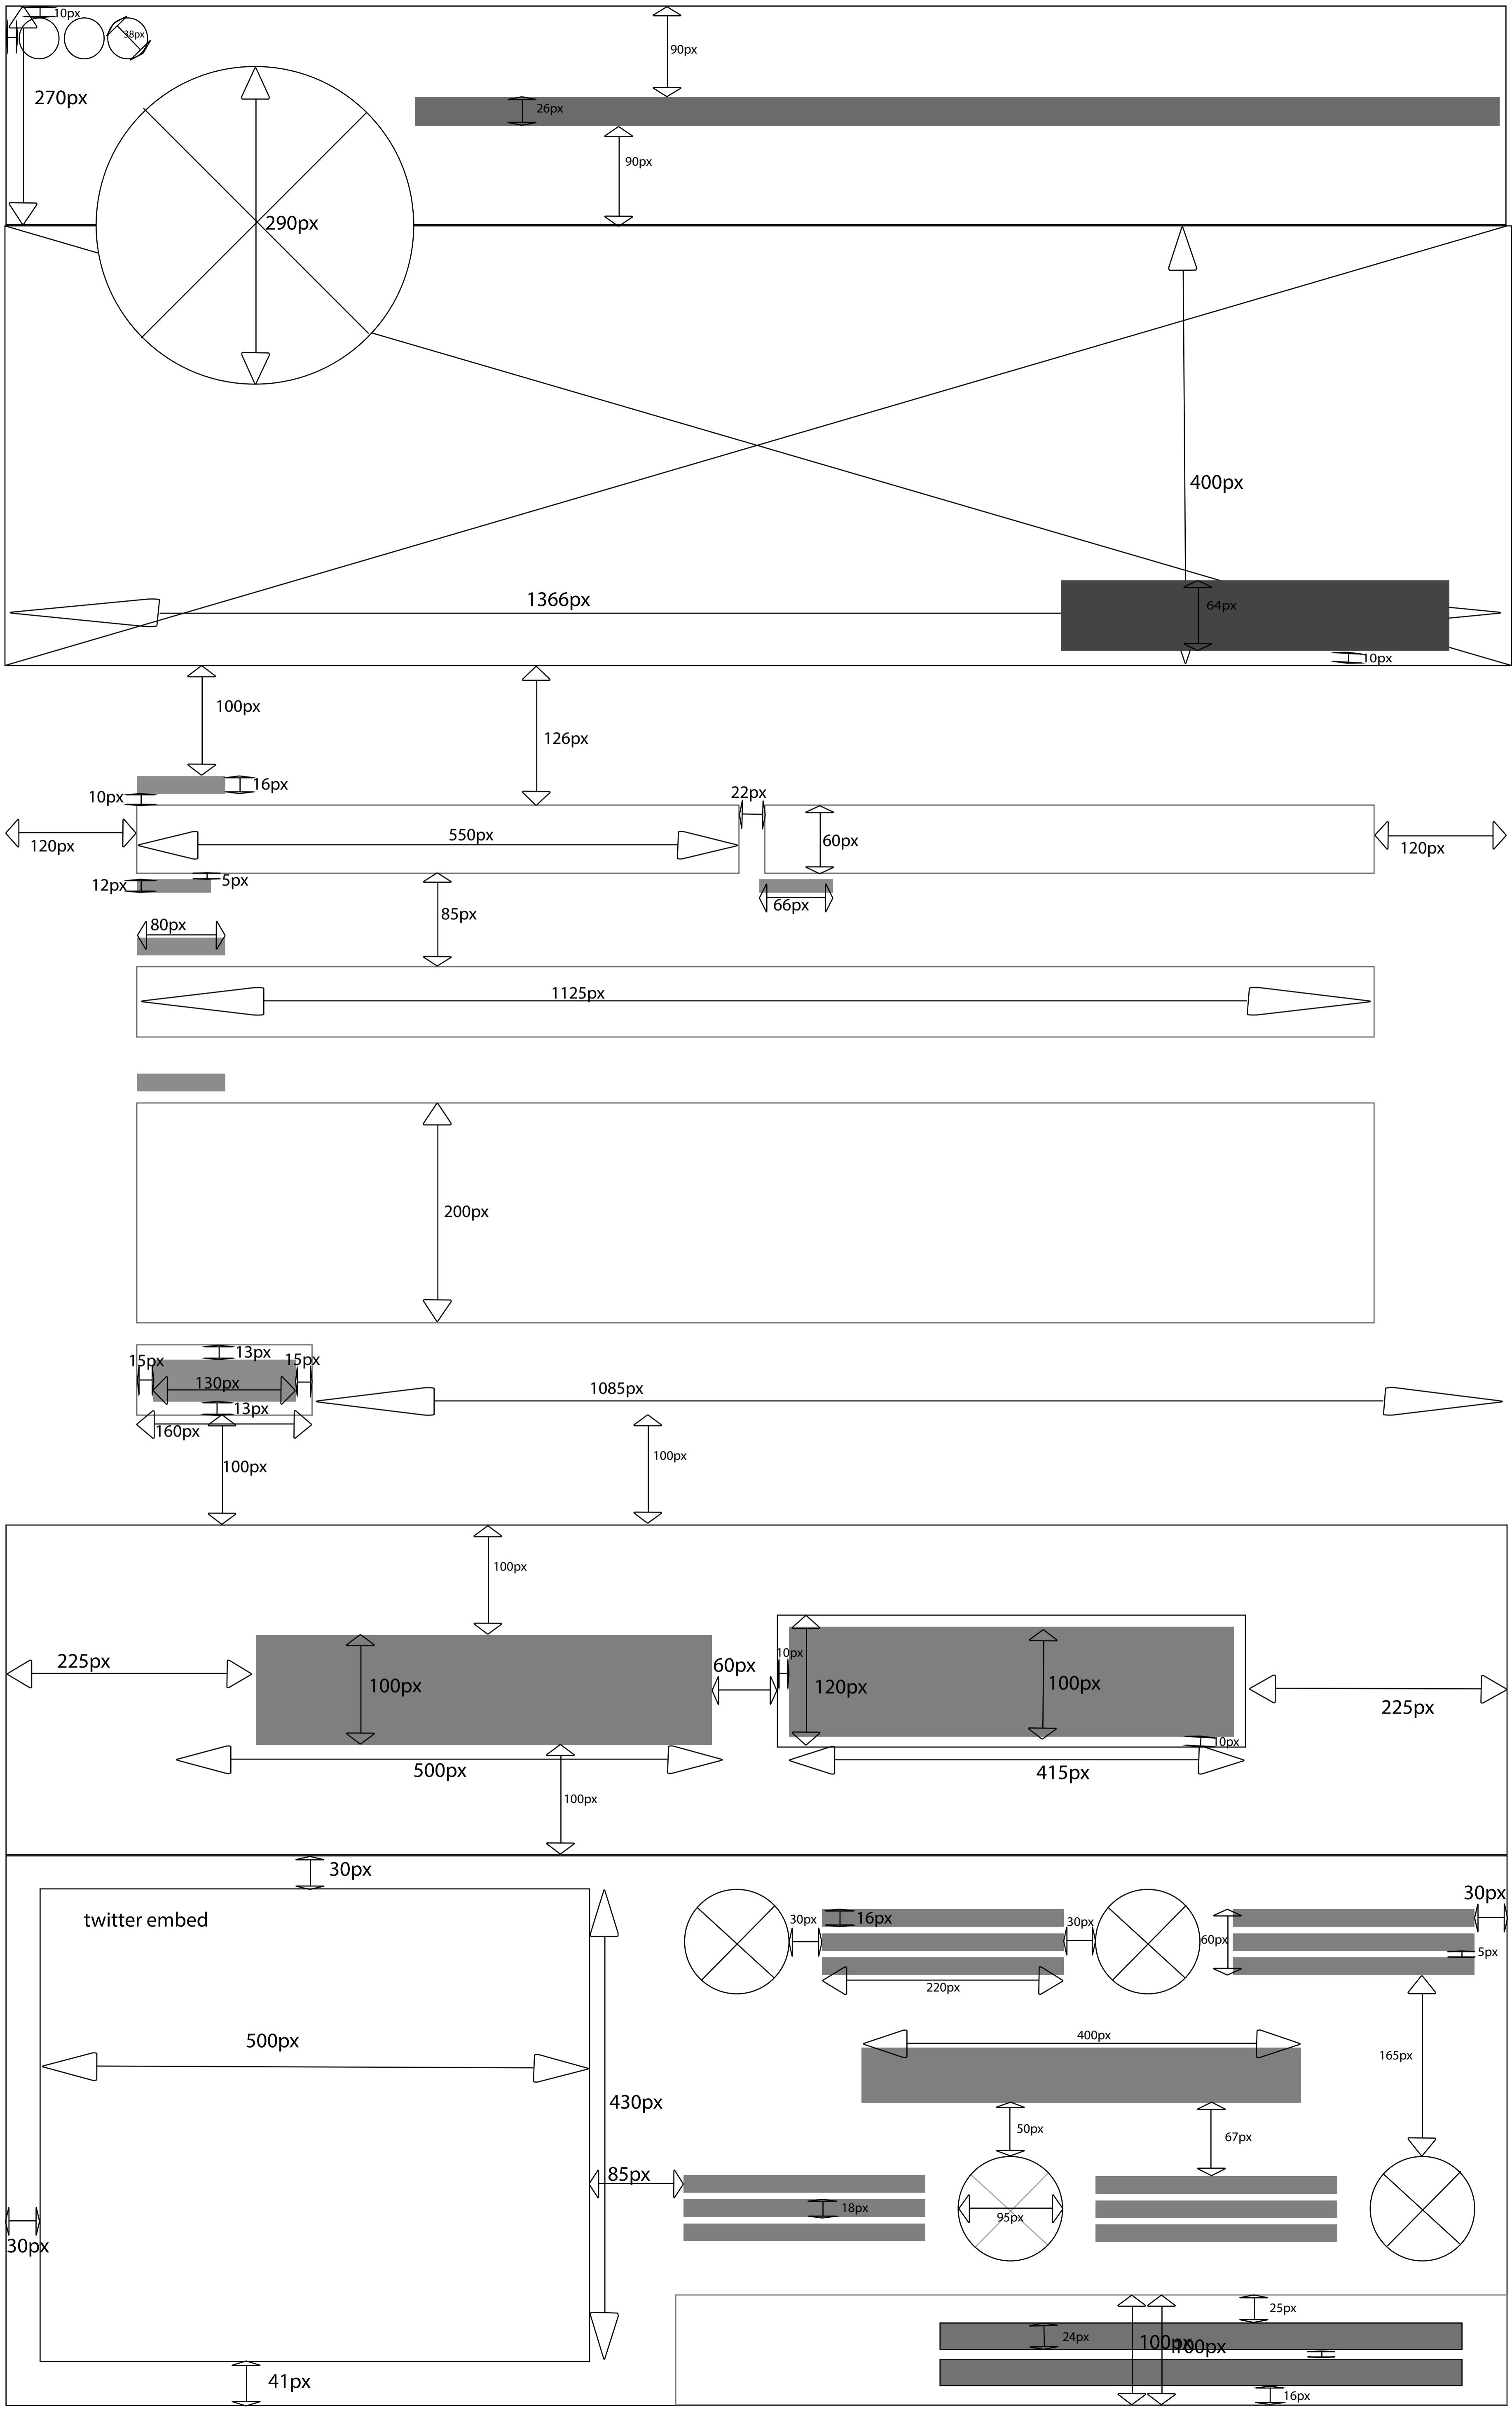

The user should be able to reach all areas of the website clearly and easily. As the goal of this website is to gain volunteers there is an importance placed shown to the user but having a red button to sign up clearly displayed on each page. This contrasts the blue and yellow tones of the page without conflicting with the theme of the design.

The design is based on the scrolling pattern of users. The most important information is at the top of the page and as the user scrolls down additional information will appear. White space is used to keep this website from looking too cluttered. The user will find links to social media on the top of each page to drive new followers on social media.
